

eRESIDENCY 2021

Selecting your Interview Date & Time

Eligibility to apply for Residency Training

Moving forwards from the July 2020 Intake, to be eligible to apply for Residency Training in Singapore, you have to be:

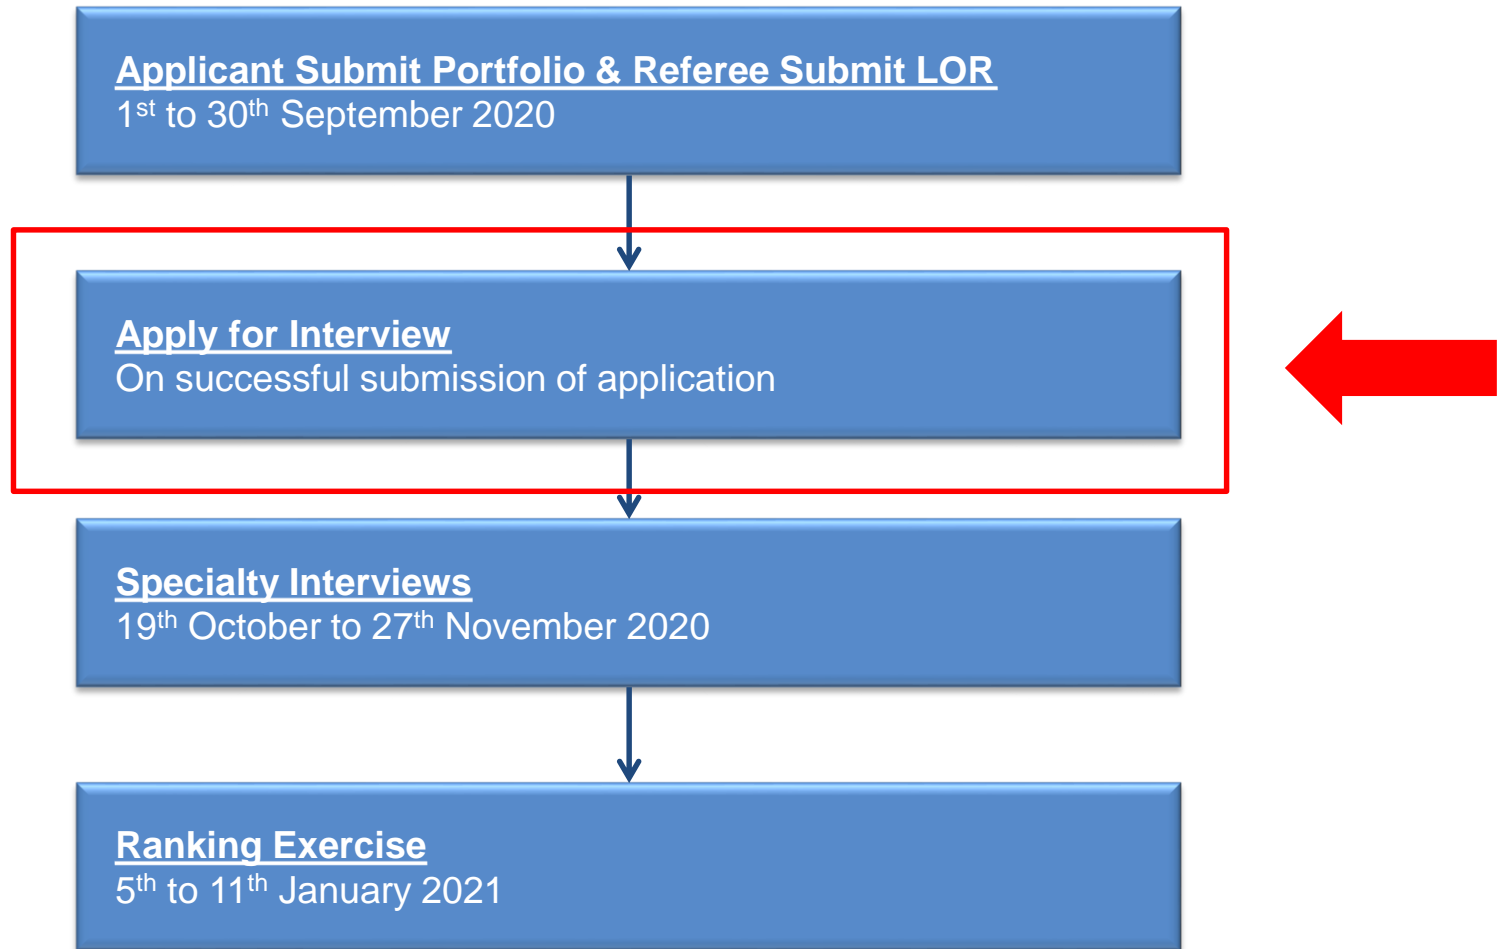

1. An Employee of MOH Holdings Pte Ltd at the time of application.
2. Be Post Graduate Year (PGY) 2, at the minimum, by July of the year you are entering Residency Training (R1).

Please contact Jimmy Gan (jimmy.gan@mohh.com.sg) should you require further assistance.

1. You can only select up to 2 Clinician Track programmes to apply, and interview, for. There is no option to apply for a Clinician-Scientist track.
2. You can only apply for a switch to a Clinician-Scientist track in the 3rd year of your current programme.
3. Matches are binding. Rejection of a match, or withdrawal midway through training, will result in penalties (1 year penalty imposed for next application). A non accepted match has the consequence of depriving another applicant a position as we cannot rematch.
4. If you do not want to apply for, or are not matched to, Residency Training for the July 2021 intake, you will be posted according to your MOPEX rotation preferences.
5. Please note that placement for postgraduate medical training positions will be prioritized for Singapore Citizens, Singapore PRs, and local-trained foreigners.

6. Applicants should inform MOHH early if their commencement of training (if matched) will be delayed due to mandatory leave (NS candidates, maternity leave, ORD off-cycle).
7. PGY1 applicants are strongly encouraged to submit all relevant documentation, including PGY1 assessment forms (P1, P2, P3 forms) when completing the portfolio submission in the MOHH portal
8. Medical Officers applying are strongly encouraged to submit all relevant documentation, including available C1 assessments when completing the portfolio submission in the MOHH portal
9. Residency interviews will be conducted by the respective Sponsoring Institutions. Please refer to page 7 for more details.

Timeline for Residency Application Exercise

Check <http://www.physician.mohh.com.sg/> for updates

A healthcare professional in purple scrubs is shown from the chest down, sitting at a desk. They have a white stethoscope around their neck. Their right hand is on a black computer keyboard, and their left hand is holding a pen over a document. The background is slightly blurred, showing a computer monitor on the right.

Selecting your Interview Date & Time

On successful submission of your application, you are required to contact the Programme to schedule an interview.

Refer to the next few slides for the Schedule and Contacts.

Please note that you are only to apply for an Interview for a programme that you have listed in your application. All other Interview requests for programmes not listed will be voided.
